

EFFECTIVE

May 1, 2017.

Subject(s)

FOM 801, Health Services for Foster Children.

1. Medical passport updated requirements.
2. Documentation of health requirements.
3. Parental involvement in child's health care.
4. CareConnect 360.
5. Hyperlink updates.
6. Legal base.

**1) Medical
Passport**

FOM 801 medical passport requirements policy revisions include the following:

- An updated medical passport is provided prior to or at the first scheduled appointment to all medical and mental health professionals to whom the child is newly referred and accepted for treatment.

Reason: To provide clarification to the field as to when and which health care providers are to receive a child's updated medical passport.

- An updated medical passport is provided to the child's foster care provider every quarter.

Reason: Implementation, Sustainability, and Exit Plan (ISEP) requirement.

- An updated medical passport is provided to all older youth (age 16 and over) upon initial independent living placement.
- All older youth (age 18 and over) are to receive his/her updated medical passport upon exiting the foster care system.
- Former foster youth re-entering foster care are provided with a copy of the medical passport as follows:
 - Within two weeks of re-entry into foster care.
 - Upon exiting young adult voluntary foster care (YAVFC).

Reason: To align FOM 801, Health Services for Foster Children policy with FOM 722-03C, Older Youth: Preparation, Placement and Discharge policy.

- Required information for the medical passport.

Reason: Child Welfare Medical Unit clarification to the field and Implementation, Sustainability, and Exit Plan (ISEP) requirement.

2) Documentation

FOM 801 revisions include updates for health requirement documentation in:

- Paper documents and forms.
 - Uploading documents and forms into Health Profile section of MiSACWIS.
 - Copies in Case file - Medical Records Section.
- MiSACWIS
 - Information entered into the MiSACWIS Health Profile section populates or downloads into:
 - Case service plans.
 - Medical passport.
 - Required information to enter into the Health Profile section.
 - Required medical and dental exams.
 - Diagnoses.
 - Health appointments/office visits, including mental health services and medication reviews.
 - Hospitalizations.
 - Chronic conditions.
 - Allergies.
 - Medications, including dosage, diagnosis resulting in prescribed medication and prescribing physician.
 - Emergency treatment.

- Immunization record.
- Description of any needed/recommended health follow-up treatment and appointments.

Reason: Child Welfare Medical Unit documentation clarification to the field.

3) Parental Involvement

An emphasis on parental involvement in the child's health care is added throughout FOM 801.

Reason: Children's Services Agency Policy and Program Office recommendations.

4) CareConnect 360

FOM 801 policy updates include CareConnect 360 information and the following requirement:

Review CareConnect 360 to ensure that the child's current health information (if available) is considered for placement and provided to the foster care provider.

5) Hyperlink Updates

Hyperlinks within FOM 801 are updated.

6) Legal Base

The legal citations within FOM 801 are updated and moved to the end of FOM 801.

Reason: Guidance from Children's Services Legal Division and Policy & Legislation Office.
